

## ATTENTION PARENTS OF STUDENTS THAT RIDE BUSES!!!!

As part of National School Bus Safety Week, the bus garage is going to donate to each bus rider a safety light that can and NEEDS to be attached to his/her backpack.

It will be an LED light that will help students to be seen by the driver and other drivers while they are waiting for the bus. The mornings are still pretty dark, and we believe this will be a great thing. We want all of our students to be safe, and this is one way to make that happen.

I request that parents help us by talking to students about the proper way to use these. They need to be turned on while waiting at the stop and then turned off when entering the bus. They SHOULD NOT be turned on while on the bus. They also MUST stay attached to backpacks. PLEASE do your best to make sure students have their backpacks everyday.

If you have any questions, feel free to contact me.
