February 18, 2021

Dear Parents of Jr/Sr High School Parents:

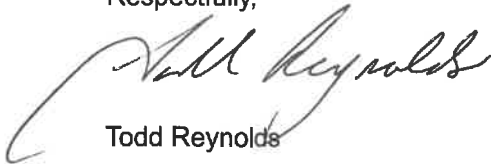

As most of you know, our Central Elementary School has been going to school five days a week for most of the school year. The number of positive cases are declining in the county, and many of our staff have been vaccinated. Considering all factors, it was recommended, discussed, and later voted on by the Board of Education for our students to return to every day learning on **March 15, 2021**.

When students return to school on the 15th, the mask expectation will continue to be the same. Everyone within the school will be expected to wear their mask except while eating. Once they are done eating, they should replace their mask to the appropriate position on their face. While we cannot guarantee that students will be socially distanced 100% of the time, we will do our best to try and offer as much space as possible. As it has been for the last year, if your student is not feeling well, we ask that you keep them home rather than risk infecting others.

We felt that March 15th gave us plenty of time to get students used to being in school again before the testing period started for all state mandated testing right after Spring Break. We know that it is best for students to be with teachers on an everyday basis, and we feel that the time is right to start planning this for our students.

If you have any questions regarding this, please contact Mr. Reynolds at treynolds@wpcschoools.org or at 269-483-2987.

Respectfully,

Todd Reynolds
